Clan MacLomain Family Tree

The King's Druidess Prelude

Location: Ireland
Erc Breac, King of Dalriada
Druidess Chiomara Ruadh

Children
Born Circa 487 A.D.

They had two children relevant to this series. Both became immortal wizards. Their blood son was Adlin MacLomain. Without ever having met his parents, he was delivered by the Celtic Goddess, Brigit, to the Scottish Highlands where he eventually settled in the area now known as Argyll. Their foster daughter was Iosbail. When young, she left Ireland and traveled through Europe until eventually settling in the lowlands of Scotland where she began Clan Broun. An area on the North Sea now known at East Lothian. While this family tree will touch briefly on Iosbail's lineage, it mainly follows Adlin's offspring.

Adlin MacLomain

Known descendants and their futuristic lasses

There were three couples in the **Original MacLomain Series**. They gave birth to the children of the **Next Generation** who then birthed those that became the heroes in the **Later Years**. The heroes of **A New Beginning** were born of the romances from the **Later Years**. The following includes three trees. One for each of the original couples.

Fate's Monolith

Book One

Though this couple met in Scotland in 1199, due to time travel to the future, they lost 11 years. Therefore, they were still the same age when they returned to Scotland in 1210 that they were when they left.
